

SS 316 Vertical Mount Liquid Level Sensor Switch - 120mm Stem

- **MATERIAL:** Constructed from SS 316 food-grade stainless steel, making it suitable for use with water, milk, coffee, tea, and industrial chemicals
- **DIMENSIONS:** Total length of 120mm with a ball length of 25mm and ball outer diameter of 25mm, ideal for precise liquid level detection
- **WIRING:** Comes with a 1 metre Teflon 2-core wire, ensuring reliable and durable electrical connections in demanding environments
- **MOUNTING TYPE:** Vertical top-mount design with threaded stem, nut, and washer for secure and easy installation on tanks and machines
- **WIDE APPLICATION:** Suitable for water tanks, milk processing, coffee and tea machines, and industrial chemical liquid level control systems
- **Switch :** 2AMP Switch
- **SPECIFICATIONS:** MAX VOLTAGE -240V MAX CURRENT 24 Amp MAX TEMP - 125 °C MATERIAL - SS 316 (Food Grade) PROSESS CONNECTION - 1 / 4 BSP (m) TYPE OF SWITCH - SPST WIRE - 1 METER TEFLON INSULATED 2 CORE TOTAL LENGTH END TO END - 120mm FLOAT SIZE - 25 L (mm) 25 (mm) OD TOTAL WEIGHT - 90 GM (+/- 5)
