

Dry Run Sensor 70mm SS3316 Pin

- **DRY-RUN PROTECTION:** Detects absence of liquid in pipelines and triggers pump shutoff, preventing damage from running dry and ensuring extended pump life.
- **STAINLESS STEEL PROBES:** Constructed from SS 316 grade stainless steel with 4mm diameter and 70mm probe length for corrosion resistance and long-lasting performance.
- **DURABLE PLUG CONSTRUCTION:** White plug made PP with assembly and moulded-in strain relief for reliable sealing.
- **EASY PIPE INSTALLATION:** Features a standard ½ inch thread mount for straightforward installation on water pipelines, including government and municipal supply lines.
- **CABLE SPECIFICATIONS:** Comes with PVC-insulated 2 Wire signal cores for secure electrical connection.
